Axis.

NEED TO REDRAW WITH CAPTIONS! 😊

Pretty URLs - PATTERNS

① DOMAIN. ② PATTERN. ③ NAME / ID. ④ HASH
ACTION. PROPERTIES

WIKIPEDIA-STYLE STRINGS e.g.

dopedogy.org / team / Astoria
/ doctor / Michele Ferraris
↳ is this necessary?

Multiple word separation:

wikipedia.org / wiki / Milton - Keynes (underscore)

World - War - II (underscores)

Shake - 'n - Bake (apostrophes)

Dashes in orig. phrase [T - shirt
Spanish - American - War
= special chars reported

special chars reported

Query separators!

Cannot conflict with word separators a character in Database Content. e.g.

- * underscore OK
- Dash not OK e.g. "F - Eleven"
- "AND" not OK e.g. "Jack and Jones"

↳ Stripping SQL injection OR, AND etc. +

. #Access

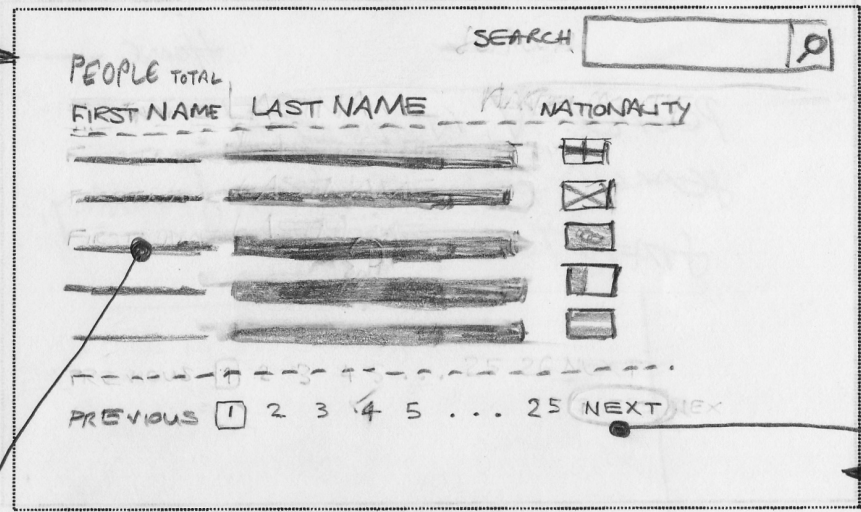

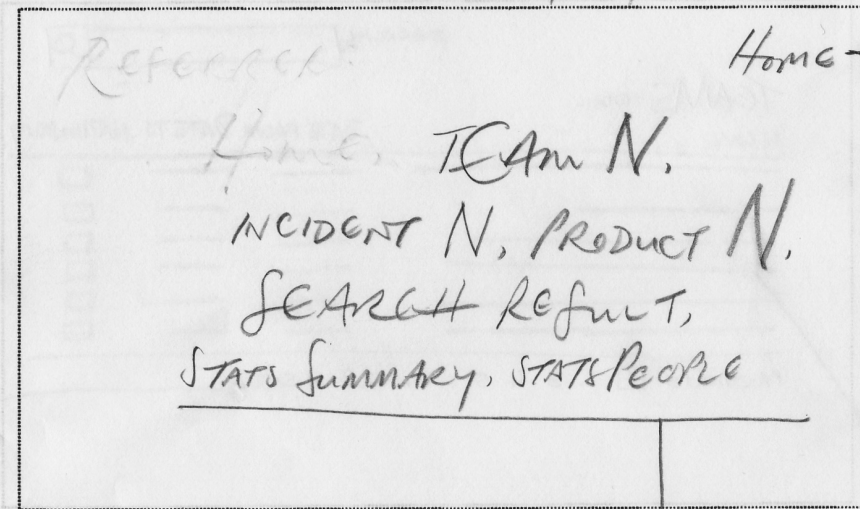

need to check regex
alpha, alphanumeric
cleaning to protect from exploits.
- basic MVC approach with engine to handle everything!

What separators?

Split query string using / pipe
id / order / perpage / page number

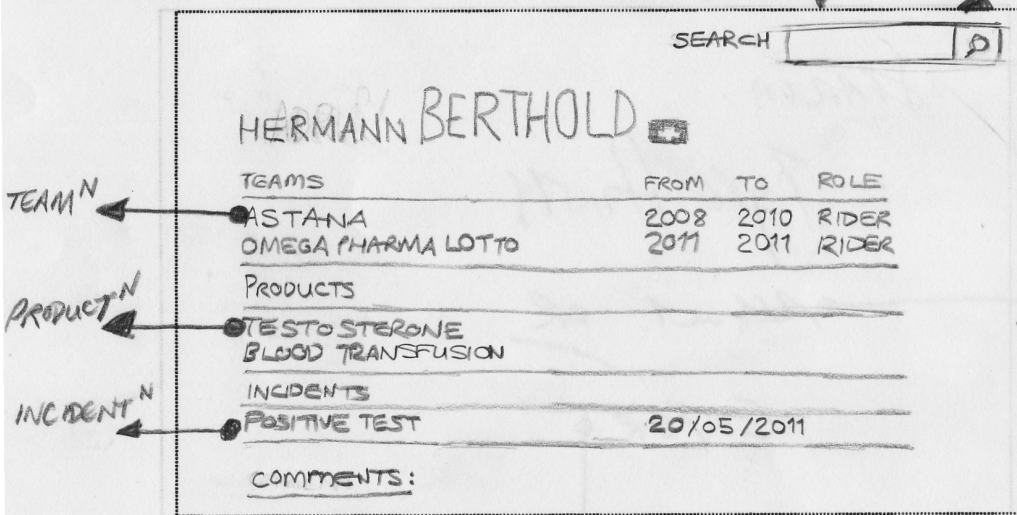

Split string w/ another char "@" mike@padgett

not like spaces which are w/ score.

JS!

more, more text but less disruptive flow,
wyswyg: no bells and whistles, no scripts!

Clear contrast, doesn't interfere with data but
a lot of clutter. Too different from desktop brand?
